Brightleaf Solutions Forges Alliance with Corridor Company to Streamline Contract Abstraction and Management

Companies to work together to provide reliable data capture services and deep insight into key terms and obligations

Brookline, MA – Brightleaf Solutions, Inc., a company that provides services to overcome the challenge of mining important information from structured, unstructured and text-based documents, announced today that it has partnered with Corridor Company, Inc. the leading provider of contract lifecycle management solutions.

Brightleaf and Corridor will provide an end-to-end solution, from a fast and highly accurate abstraction of key data from legacy contracts, to the full contract lifecycle of create, negotiate, approve, sign, and manage contracts in Corridor's SharePoint –based system, CM [.app]™. The full integration of existing contracts gives CM [.app] users a 360 degree view and total control of all their agreements.

"Brightleaf's high quality, automated abstraction of the terms, provisions, and obligations from executed contracts works seamlessly with Corridor's CM [.app]™," said Samir Bhatia, CEO of Brightleaf Solutions, Inc. "This allows users to work within CM[.app] to track these attributes and related contract metadata to manage risk and even find hidden revenue once extracted using Brightleaf's solutions. Often times, penalty clauses and responsibilities are forgotten by each party. Extracting this information from their contracts has enabled clients to find millions of dollars they had missed."

Brightleaf's technology automates the process of extracting and importing and uploading contract data into Corridor's CM [.app]™ providing exceptionally high accuracy: up to six sigma standards.

According to Russ Edelman, CEO of Corridor Company "When one deploys a contract management solution, the difficulty of extracting data from thousands of legacy contracts is a huge hurdle. By working with Brightleaf, Corridor makes deployment far easier and less costly because we can offer far more efficient, accurate 'legacy load'. Our customers can enjoy all the benefits of CM [.app] across not just some, but every one of their contracts. This delivers higher value to the executive management team as well as those involved in the contracting process as soon as the system is enabled for use."

ABOUT CORRIDOR COMPANY

Corridor Company is committed to continually evolving their software product line to meet the challenges of contracts and their proper management. With a business application platform that readily provides solutions for Contract, Proposal and Supplier Management, Corridor's end-to-end solutions enable customers to create contracts and proposals more efficiently, manage all the processes more effectively and ensure that revenue, profit and compliance are all fully optimized. Corridor's flexible licensing model supporting implementation packages and delivery options which include on premises, in the Cloud or Office 365, ensure a solution tailored to fit the needs of your company. ABOUT BRIGHTLEAF SOLUTIONS, INC.

Big data, Business Intelligence, and data driven decisions are having a profound effect on U.S. business operations, becoming a \$143B market in 2016. Brightleaf's vision is to accelerate this adoption with technology that overcomes the challenge of mining important information from unstructured, text-based documents and making it accessible.

With an initial focus on executed legal contracts, Brightleaf opens new doors for companies to manage risk, ensure regulatory compliance, meet customer obligations, and get meaningful insight into their customer, partner, and vendor behavior.
