Brightleaf Solutions Strengthens Legacy of AI-Powered, Human-Validated Contract Data Extraction in the Technology Sector

Turning contract chaos into clarity that accelerates compliance and operational agility

Brookline, MA – Brightleaf Solutions, Inc., Brightleaf Solutions a leading provider of AI-powered contract data extraction services, today announced the successful completion of multiple enterprise-scale projects across the technology sector. Building on years of proven delivery, Brightleaf continues to transform complex, fragmented contract repositories into structured, reliable datasets that empower organizations to achieve compliance readiness, mitigate risk, and accelerate operational agility.

For over a decade, Brightleaf has consistently demonstrated its ability to deliver precise, scalable, and trustworthy contract intelligence. By combining advanced machine learning with rigorous human validation, Brightleaf ensures that extracted data is not only accurate but contextually reliable, providing technology companies with complete confidence in their contract information.

Key Extracted Attributes

- **Agreement Details:** Agreement Type, Sub-Type, Effective Date, Parent Effective Date
- **Counterparty & Governance:** Legal Entity Name, Governing Law, Governing Venue, Legal Notice Information
- **Operational & Compliance Fields:** Limitation of Liability Clauses, Audit Requirements, Consent to Use Anonymized Data, Background Checks, Non-Standard AI Terms, Publicity Waiver Letters

Brightleaf's engagements span diverse contract types, including Master Agreements, Independent Contractor Services Agreements, Vendor Data Processing Agreements (DPAs), and Statements of Work (SOWs), delivering transparency, consistency, and control across client repositories.

"In today's fast-moving software ecosystem, structured contract data is the backbone of compliance and operational agility. Brightleaf has been delivering these projects for years, and our continued success demonstrates how AI-powered extraction, reinforced by human validation, converts static archives into dynamic datasets that drive automation, compliance, and faster decision-making. We enable technology companies to make smarter, safer, and more confident decisions built on trusted contract intelligence," said **Samir Bhatia, CEO of Brightleaf Solutions.**

These achievements reaffirm Brightleaf's longstanding leadership in enterprise-scale contract intelligence. By uniting the efficiency of AI with the precision of human expertise, Brightleaf empowers organizations to accelerate workflows, strengthen compliance, and unlock the full value of their contractual data.

ABOUT BRIGHTLEAF SOLUTIONS, INC.

Brightleaf provides a technology-powered service to extract data from your contracts with extreme accuracy using our own proprietary AI/Semantic Intelligence/Natural Language Processing technology, our team of lawyers to check the output, and our Six Sigma process.

Your legacy contractual documents, along with this extracted metadata, can be migrated into a Contract Lifecycle Management (CLM) system for tracking and reporting. This greatly enhances the value of your investment in the system. The data can be virtually anything, and it is customized for each of your types of contracts. All metadata, terms and conditions, legal provisions, and even all obligations (which are usually scattered throughout your contracts) are extracted by our software. Our team of lawyers checks each-and-every extracted data point against the original documents using a stringent Six-Sigma quality process, which delivers highly accurate results.

Brightleaf gets recognized very often, including “Company of the Year” as a Contract Management Services provider. Details of this and other recognitions and awards can be found at www.brightleaf.com/awards-recognitions
