# Brightleaf Solutions Celebrates a Decade of Innovation in Contract Data Extraction

## Marking ten years of transforming contract data into strategic insights for businesses across industries

Brightleaf Solutions, a leading provider of AI-powered contract data extraction and migration company, is proud to celebrate ten years of empowering businesses with innovative, efficient, and accurate contract data solutions. Over the past decade, Brightleaf has helped companies across various sectors streamline contract management, ensure compliance, and reduce risk through cutting-edge technology.

Since its founding, Brightleaf Solutions has achieved numerous milestones that underscore its commitment to excellence and client success. From pioneering advancements in AI-driven contract data extraction to achieving industry certifications, Brightleaf has consistently set the standard in contract data extraction. The company's portfolio includes a diverse array of clients—from real estate and healthcare to financial services—all of whom have benefited from Brightleaf's ability to transform complex contract data into actionable insights.

"Our journey over the last ten years has been marked by growth, innovation, and a relentless focus on delivering value to our clients," said Samir Bhatia, CEO of Brightleaf Solutions. "We are incredibly grateful for the trust our clients have placed in us, and we look forward to the next decade of driving new standards in contract data management."

In celebration of this milestone, Brightleaf Solutions is expanding its services to include enhanced compliance solutions, advanced risk scoring, and automated contract data extraction and summarization. The company remains dedicated to pushing the boundaries of what's possible in contract data management, continuously investing in technology and talent to stay at the forefront of the industry.

### **ABOUT BRIGHTLEAF SOLUTIONS, INC.**

Brightleaf provides a technology-powered service to extract data from your contracts with extreme accuracy using our own proprietary AI/Semantic Intelligence/Natural Language Processing technology, our team of lawyers to check the output and our Six Sigma process.

Your legacy contractual documents along with this extracted meta-data can be migrated into a Contract Lifecycle Management (CLM) system for tracking and reporting. This greatly enhances the value of your investment in the system. The data can be virtually anything, and it is customized for each of your types of contracts. All meta-data, terms and conditions, legal provisions, and even all obligations (which are usually scattered throughout your

contracts) are extracted by our software. Our team of lawyers checks each-and- every extracted data point against the original documents using a stringent Six-Sigma quality process, which delivers highly accurate results.

Brightleaf gets recognized very often, including “Company of the Year” as a Contract Management Services provider. Details of this and other recognitions and awards can be found at [www.brightleaf.com/awards-recognitions](http://www.brightleaf.com/awards-recognitions)
