Brightleaf Opens New Delhi Client Operations Center

Inaugurates new services facility, grows its staff

Brookline, MA – Brightleaf Solutions, Inc. today announced the opening of its first client services facility in Gurgaon, New Delhi, India.

“This will be the foundation of our client services organization.” stated Samir Bhatia, Brightleaf CEO. “Our customers ask us to process their most important legal documents relating to clients, partners, and vendors. We need a facility where we can work with precision and give attention to the smallest details, under extremely high security and do it at competitive prices. This office and our new team in Delhi deliver that.”

Located at Technopolis, 5th Floor, DLF Golf Course Road, Sector 54 Gurgaon – 122002, India, the facility will shortly double its staff. The decision to locate in Gurgaon, and the initial hiring was overseen by Anil Nair, Brightleaf’s Director of Client Services.

“I’ve helped other companies open India offices, and it’s been difficult to staff them due to the sheer number of American companies setting up and expanding operations. But Brightleaf’s vision, even at this early stage, for helping companies make better decisions has been well received and we’ve been able to hire some really strong, experienced legal and business professionals.”

Pardha Sai, Brightleaf’s Director of Client Delivery will provide day-to-day oversight. According to Pardha, “It’s first-class office space, and we have a first-rate team. About half of them, like me, were part of the original Brightleaf Corporation which split into two separate companies. The others are new hires and they represent some incredible talent. I’m delighted and excited to provide them guidance and leadership for delivering best-in-class services to our corporate clients.”

ABOUT BRIGHTLEAF SOLUTIONS, INC.

Big data, business intelligence (BI), and data driven decisions are having a profound effect on U.S. business operations, becoming a \$143B market in 2016. Brightleaf’s vision is to accelerate this adoption with technology that overcomes the challenge of mining important information from unstructured, text-based documents and making it accessible.

With an initial focus on executed legal contracts, Brightleaf opens new doors for companies to manage risk, ensure regulatory compliance, meet customer obligations, and get meaningful insight into their customer, partner, and vendor behavior.
