

## PRESS RELEASE

September 27, 2022

# **Brightleaf Solutions Announces the Release of its Bulk Data and Document Ingestion API into Salesforce directly from Brightleaf's Extraction Engine**

**The advancement will help accelerate extraction and analysis of contract data on the Salesforce platform**

Brookline, MA, September 27, 2022 – Brightleaf Solutions, a leading contract data extraction provider, has released the latest version of its AI-enhanced contract data extraction software, which includes AI-based auto-extraction and contract analytics for increased data speed, accuracy, and business impact. Brightleaf's AI auto-extraction tool uses ML (machine learning), NLP (natural learning process), and AI (artificial intelligence) modules to accelerate your company's contracting activity.

Brightleaf's smart AI and NLP-based contract data extraction and analytics software which understands linguistics, as well as broad and multi-layered grammatical constructs, enables it to parse complex legal language across any number of contracts and companion documents such as amendments, addenda, side letters, etc., is advanced to integrated with Salesforce and other major CLM or ERP platforms. The software can be embedded into the workflow of the platform system to enable quick extraction of meta-data from contracts.

"The system's adaptability and the ability to fully unleash the value of the information contained in contracts are made possible by its API-driven and AI-powered design. We're proud and happy to have established ourselves as the go-to firm for contract data extraction, working in tandem with providers of Contract Lifecycle Management Systems to alleviate their customers' primary concern: how to incorporate contracts from the past into the present, complete with all relevant meta-data and OCR'd files.", adds Samir Bhatia, CEO of Brightleaf.

### **ABOUT BRIGHTLEAF SOLUTIONS, INC.**

Brightleaf provides a technology-powered service to extract data from your contracts at extreme accuracy using our own proprietary AI/Semantic Intelligence/Natural Language Processing technology, our team of lawyers to check the output, and our Six-Sigma process.

Your legacy contractual documents along with this extracted meta-data can be migrated into a Contract Lifecycle Management (CLM) system for tracking and reporting. This greatly enhances the value of your investment in the system. The data can be virtually anything, and it is customized for each of your types of contracts. All meta-data, terms and conditions, legal provisions, and even all obligations (which are usually scattered throughout your

contracts) are extracted by our software. Our team of lawyers checks each-and- every extracted data point against the original documents using a stringent Six-Sigma quality process, which delivers highly accurate results.

Brightleaf gets recognized very often, including “Company of the Year” as a Contract Management Services provider. Details of this and other recognitions and awards can be found at [www.brightleaf.com/awards-recognitions](http://www.brightleaf.com/awards-recognitions)
