February 05, 2025

# **Brightleaf Solutions Awarded U.S. Patent for Its Innovative AI-Powered Contract Data Extraction Technology**

## **Recognizing Brightleaf's AI-Driven Technology for Transforming Unstructured Contract Data into Actionable Insights**

Brightleaf Solutions, a leading provider of AI-powered contract data extraction and migration company, proudly announces that it has been granted a patent by the United States Patent and Trademark Office (USPTO) for its innovative technology in contract data extraction. This patent recognizes Brightleaf's innovative approach to extracting critical information from contracts with unparalleled accuracy and efficiency.

The newly granted patent covers Brightleaf's proprietary technology that leverages advanced artificial intelligence (AI) and machine learning (ML) techniques to automate the extraction, classification, and structuring of key contract data. This breakthrough innovation addresses one of the biggest challenges in contract management—converting unstructured legal language into structured, actionable data.

"This patent award is a testament to Brightleaf's commitment to technological advancement and our relentless pursuit of excellence in contract intelligence," said Samir Bhatia, CEO of Brightleaf Solutions. "By combining AI with deep legal expertise, we empower businesses to unlock valuable insights from their contracts, streamline compliance, and drive better decision-making."

Brightleaf's patented technology is designed to process complex legal documents with a high degree of accuracy, significantly reducing the time and cost associated with manual contract review. This innovation is particularly beneficial for industries dealing with large volumes of contracts, such as legal services, healthcare, financial services, and procurement.

With this patent, Brightleaf further strengthens its position as a leader in the AI-driven contract data extraction and analytics space. The company continues to invest in cutting-edge technologies that enhance contract intelligence, risk assessment, and compliance for its clients worldwide.

### **ABOUT BRIGHTLEAF SOLUTIONS, INC.**

Brightleaf provides a technology-powered service to extract data from your contracts with extreme accuracy using our own proprietary AI/Semantic Intelligence/Natural Language Processing technology, our team of lawyers to check the output and our Six Sigma process.

Your legacy contractual documents along with this extracted meta-data can be migrated into a Contract Lifecycle Management (CLM) system for tracking and reporting. This greatly enhances the value of your investment in the

system. The data can be virtually anything, and it is customized for each of your types of contracts. All meta-data, terms and conditions, legal provisions, and even all obligations (which are usually scattered throughout your contracts) are extracted by our software. Our team of lawyers checks each-and- every extracted data point against the original documents using a stringent Six-Sigma quality process, which delivers highly accurate results.

Brightleaf gets recognized very often, including “Company of the Year” as a Contract Management Services provider. Details of this and other recognitions and awards can be found at [www.brightleaf.com/awards-recognitions](http://www.brightleaf.com/awards-recognitions)
